Tdivers

Teaching Diverse Learners in
School Subjects

November 19th: Final Conference of the Comenius-Network Tdivers (2013-16)

SAVE THE DATE

CONFERENCE ABSTRACT

During the final conference, members of six European country teams will present collected materials to inspire teachers to make their schools more inclusive! Based on three years of collaborations across Europe, including local school/university partnerships, we present tools to further professionalize teaching in school subjects.

During workshop and plenary sessions, we

will provide information about education systems, profiles of inclusive schools, and experiences of teachers, parents, and children. On the basis of site visits, interviews, and videos, teachers and researchers as well as pupils and parents from Germany, Iceland, Lithuania, Luxembourg, Spain, and Sweden will present their knowledge of and strategies in teaching diverse learners.

CONFERENCE SCHEDULE

SATURDAY

10:00 - 12:00

Keynote: Prof. Dr. Tanja Sturm

“(Re)Producing and handling differences in subject teaching”

Presentation of the Project

TdiverS - collecting inspiring practice of inclusive education in six European countries
