

Leibniz Plant Biochemistry Symposium 2016

Thursday June 23rd

- 17:00 -17:10 **Welcome address: Prof. Tina Romeis, FU Berlin**
- 17:10 -18:30 **Evening lecture: Prof. Frédéric Bourgaud, Université Nancy-Lorraine, France**
Deciphering the synthesis of coumarins and furanocoumarins
in higher plants

Friday June 24th

- 9:00 - 9:05 **Opening remarks: Prof. Alain Tissier**
- 9:05 - 9:50 **Dr. Silke Robatzek, The Sainsbury Laboratory, Norwich UK**
Illuminating plant transport-regulated immunity
- 9:50 - 10:35 **Prof. Gunther Döhlemann, University of Cologne**
Modulation of plant immunity in biotrophic interactions
- 10:35 - 11:05 **Break**
- 11:05 - 11:50 **Dr. Armin Djamei, Gregor Mendel Institute, Wien**
Dissecting effector functions in a biotrophic maize-fungal pathosystem
- 11:50 - 13:00 **Lunch (IPB Foyer)**
- 13:00 - 14:30 **IPB tour**
- 14:30 - 15:15 **Prof. Ute Roessner, The University of Melbourne**
Identifying novel salinity tolerance mechanisms by spatial omics analyses
in barley roots
- 15:15 - 16:00 **Dr. Dominique Loqué, Joint BioEnergy Institute, Lawrence Berkeley**
National Laboratory, USA
Engineering bioenergy crops: Expression tools and lignin manipulation
- 16:00 - 16:30 **Break**
- 16:30 - 17:15 **Prof. Joost van Dongen, RWTH Aachen University**
Controlling the molecular responses to low-oxygen stress
- 17:15 **Closing remarks: Prof. Ludger Wessjohann**

Leibniz-Institut für Pflanzenbiochemie

Weinberg 3, Halle an der Saale, **Anmeldung auf www.ipb-halle.de**
