SYMPOSIUM

From Ageing to Geriatrics

Friday, February 19th 2016,
9 am to 1.30 pm

Center for Molecular Medicine (CMMC)
of the University Hospital of Cologne

Dear Colleagues,

It is with outmost pleasure that we announce the Symposium „From Ageing to Geriatrics“ which will be held in Cologne at the Center for Molecular Medicine (CMMC) of the University Hospital of Cologne.

During the most impressive demographic change in the human history, researchers and health care practitioners face the unique challenge of urgently miniaturizing the gap between aging science and the management and care of elderly, multimorbid, vulnerable patients.

The implications for public health are enormous. These span from

- targeted transmission of unravelled pathophysiological mechanism of age-related organ dysfunction to geriatricians, to
- feedback from geriatricians to improve clinical study design, to
- ethics of clinical decision making in advanced age, to
- socioeconomic burden associated with the lack of effective multidisciplinary and integrated care.

Over the Symposium „From Ageing to Geriatrics“ renowned experts in these fields will touch base with the arduous call for bridging „bench“ to „behaviour“ in advanced age with the ultimate scope of opening a door on new perspectives and implement networking for the prioritized patient need. Speakers will include, among others,

- Professor Alberto Pilotto, Director of the Frailty area of the Galliera Hospitals, Genua and PI of the EU study MPI_Age (www.mpiage.eu);
- Professor Alfonso J. Cruz Jentoft, Director of the Geriatrics Department of the University Hospital Ramón y Cajal, Madrid; and
- Professor Anna-Karin Welmer, from the Department of Neurobiology, Care Sciences and Society of the Aging Research Center at Karolinska Institute, Stockholm.

We are looking forward to welcome you in Cologne for this unique opportunity to translationally and transnationally share knowledge on aging research and geriatric care,

M. Cristina Polidori and Thomas Benzing

Scientific Program

9.00 Welcome, Prof. Thomas Benzing,
Vice Dean of the Faculty, CECAD EB member and Chairman of the Department II of Internal Medicine, University Hospital of Cologne

Professor Dr. Dr. M. Cristina Polidori,
Head Ageing Clinical Research,
Dpt. II Internal Medicine,
University Hospital of Cologne

9.15 am – Session I

Bridging the gap between senescence and age-related disease

Chairman: Professor Stefania Maggi

President of the European Geriatric Medicine Society (www.eugms.org)

9.15-9.30 Roman Müller, MD

Department II of Internal Medicine,
University Hospital of Cologne
Aging - from long-lived model organisms to organ protection

9.30-9.45 Valentin Goede, MD

Geriatrics Department of the St.Marien-Hospital, Cologne and Department I of Internal Medicine, University Hospital of Cologne
From molecular biology of lymphoma to lymphoma treatment in the aged

9.45-10 Paul Brinkkötter, MD

Department II of Internal Medicine,
University Hospital of Cologne
Chronic kidney disease: from renal aging to disease and when to treat your patient

10-10.15 M. Cristina Polidori, MD PhD FRCP

Aging Clinical Research
Department II of Internal Medicine,
University Hospital of Cologne
From aging brain to the vascular comorbidities of dementia

Coffee break

10.45 am – Session II

Multidimensional and personalized medicine of the aged

Chairman: Professor Alberto Pilotto

PI of the EU MPI_Age Study (www.mpiage.eu)

10.45 -11.15 Professor Alberto Pilotto, MD

Director, Dpt. Orthogeriatrics, Rehabilitation and Stabilization, Frailty area, E.O. Galliera Hospitals, Genua
Multidimensional assessment and management: the cornerstone of geriatric medicine

11.15-11.45 Professor Alfonso J. Cruz - Jentoft

Director, Servicio de Geriátria, Hospital Universitario Ramón y Cajal Madrid
Integrated geriatric care in acute hospitals

11.45-12 Prof. Anna-Karin Welmer, PhD

Department of Neurobiology,
Care Sciences and Society | Karolinska Institutet,
Aging Research Center Stockholm
Multidimensional Prognostic Index in association with future mortality and number of Hospital days in a population-based sample of older adults

12-12.15 Dr. Janet Sultana, B. Pharm., M.Sc.

Researcher, Dpt. Clinical and Experimental Medicine, University of Messina
MPI_Age: multidimensional indicators for geriatric mortality prediction in two UK nationwide healthcare databases

12.15-12.30 Dr. Julia Daragjati, PhD

Clinical Research Coordinator and
Data Manager of the University of Padua
State-of-the-art of the MPI_Age: Wp6, a mono/multicentric clinical Research Management

12.30-1.30 M. Cristina Polidori, MD PhD FRCP

Conclusive Remarks

Lunch and exchange with the experts
