**APPLY NOW!**

*The current application deadline for the Jung Career Advancement Award 2025 from the Hamburg Jung Foundation for Science and Research is August 31, 2024. The prize, endowed with 210,000 euros, is awarded annually to young medical professionals who have completed at least two years of scientific research, preferably abroad, and wish to conduct in-depth research at a German clinic while pursuing clinical training to become a medical specialist. The support is paid out over a period of three years. Applications can be submitted easily and barrier-free online in English. Applicants must upload a CV, an annotated list of publications, and a project outline in English to the Jung Foundation website. The top three applicants will be invited to a personal interview in Hamburg on October 30, 2024. The winner will be honoured at an award ceremony in May 2025 and will have the opportunity to present their research findings at the 5th Jung*

*Symposium 'Excellence in Human Medicine 2025'. More information is available at [www.jung-stiftung.de](http://www.jung-stiftung.de).*

The Jung Foundation for Science and Research has been awarding the Jung Career Advancement Award for Medical Research since 2006, thereby promoting young talent and strengthening Germany as a centre of scientific excellence. The foundation is dedicated to the national, international, and interdisciplinary advancement of human medicine. It also awards the Jung Prize for Medicine, endowed with 300,000 euros, and the Jung Gold Medal for Medicine for lifetime achievement in medical research. With a total sum of up to 540,000 euros, the three prizes are among the highest medical awards in Europe. In addition, the Jung Foundation annually awards five fellowships in human medicine and one fellowship in the medical history at the University Medical Centre Hamburg-Eppendorf, as well as three German scholarships to students of human medicine in cooperation with the University of Hamburg. In total, the foundation will provide funding worth up to 650,000 euros.

May 2024

### **About the Jung Foundation for Science and Research**

The Jung Foundation for Science and Research, based in Hamburg, Germany, annually provides up to three awards in recognition of fundamental and advanced research projects of significant clinical relevance. To date, the foundation has invested more than 15 million euros in supporting researchers whose projects build a bridge between research and the bedside. Under the motto of 'Excellence in human medicine', the foundation makes a significant contribution to the development of new treatment methods. The Jung Prize for Medicine, the Jung Gold Medal for Medicine and the Jung Career Advancement Award for Medical Research are among the most highly endowed medical prizes in Europe. With the additional awarding of fellowships and German scholarships, the foundation provides a total funding of up to 650,000 euros annually.
