**7TH FUTURE SECURITY, BONN,
SEPTEMBER 4TH – 6TH, 2012**

CALL FOR PAPERS

TOWARDS A SECURE FUTURE

Freedom is among the greatest achievements of modern society – and it is our duty to protect this freedom. The Future Security Conference brings together decision makers, public authorities, industry and scientists to discuss new ways of facing this challenge.

The conference takes a holistic view on security. It provides insight into technological breakthroughs as well as social aspects of security. It brings together the experience of high-profile researchers and professionals from both industry and public authorities.

Take this opportunity to meet and discuss our Future Security with this manifold community of security experts.

CONFERENCE TOPICS

- Security for Critical Infrastructure and Urban Areas
- Detection of Hazardous Materials (CBRNE, IED)
- Supply Chain Security, Anti-Piracy
- Crisis Management
- Cyber Defense and Information Security
- Sensor Technology
- Sensor Data and Information Fusion
- Security Situational Awareness
- Border Protection and Port Security
- Forensic Technologies
- Technology Foresight and Scenarios
- Social, Psychological and Political Aspects

PAPER SUBMISSION

Authors are invited to submit English papers describing original work in one of three different formats:

Full papers are 10-12 pages in length and should present novel perspectives within the scope of the conference. Short Papers are 3-4 pages in length and are an opportunity to present preliminary or interim results. Posters may be submitted either as a one-page written abstract or as a draft PDF version of the poster.

All submissions will be subject to a scientific review process. Accepted full and short papers will be published in the Springer CCIS series. Full paper presentations will receive an extended time slot at the conference.

For details please visit www.future-security.eu

All submissions are due on March 31st, 2012.
