"Australian Aboriginal Languages: Grammar and Syntax in the Outback"

**Marie-Elaine van Egmond,
University of Sydney
(Australia)**

Jun 20, 2012

10-12 r. 142 Alte Frauenklinik

The chair in English linguistics takes great pleasure in announcing an invited lecture on the syntax of the languages of Australia. Our speaker has just handed in her doctoral dissertation and presents us her analysis of the Australian Aboriginal Language Enindhilyakwa. This is the first systematic documentation of the endangered aboriginal language, and opens up an exotic side-step to syntax in non-inflectional languages.
