

Exhibition

**JEC Composites Show 2010****Enterprise Europe Network Bavarian Joint Stand****Hall 1 Stand F 31****13 - 15 April 2010, Paris, France**

Further information

[www.bayern-innovativ.de/jec2010](http://www.bayern-innovativ.de/jec2010)**Meet the Bavarian materials expertise at the leading trade show for fibre reinforced composites in Paris**

- **Innovative Bavarian technologies presented at the JEC**
- **Dynamic dialog at the business breakfast with the Bavarian companies**
- **Perfect teamwork of the European Enterprise Network and the Cluster Neue Werkstoffe of the Bayern Innovativ GmbH**

After the great success at JEC 2009 in Paris, the European Enterprise Network (EEN) at the Bayern Innovativ GmbH will again present Bavarian materials expertise at the JEC 2010. In close cooperation with Cluster Neue Werkstoffe (CNW – cluster for new materials), also managed by the Bayern Innovativ GmbH, nine innovative companies and one university will be presented at the joint stand of the Bavarian EEN.

To enable a target-orientated exchange of information the EEN and the CNW will organize a business breakfast at the joint booth. On **Wednesday April 14, 2010**, from **10.00 to 12.00 o'clock** companies have the possibility to get in a dynamic dialog with the innovative Bavarian companies Christian Karl SIEBENWURST GmbH Co. KG, Gummiwerk KRAIBURG GmbH Co. KG, Hella Priem Beflockungs-GmbH, Mahlo GmbH Co. KG, Maschinenfabrik Herbert Meyer GmbH, MBM Maschinenbau Mühldorf GmbH, Metawell GmbH metal sandwich technology, Siltex Flecht- und Isoliertechnologie Holzmüller GmbH Co. KG, United Initiators GmbH Co. KG, Universität Bayreuth, Lehrstuhl für Polymere Werkstoffe, CG Tec GmbH, Krauss Maffei Technologies, Development Center for X-ray Technology (EZRT).

Interested professionals can find more information about the exhibitors and their innovative technologies under:

<http://www.een-bayern-innovativ.de/jec2010>

This website also offers the possibility to book time slots for meetings with the Bavarian exhibitors.
