## Save the date!

We cordially invite you to the 12th International Symposium on Electrokinetics - Electrosurface Phenomena in Advanced Materials and Soft Matter to take place in Dresden, Germany from September 10 to 12, 2017.

### Topics

Basic principles of electrokinetic phenomena  
Molecular theories  
Electrokinetic assembly  
Ion-specific effects in materials sciences  
Charge regulation, binding and electrokinetics in living matter  
Ionic transport in polyelectrolyte complex materials  
Advanced instrumentation  
Electrokinetics in bioanalytical applications and bioseparation

### Invited speakers (by Nov. 15, 2016)

Martin Bazant (Massachusetts Institute of Technology, USA)  
Paul Dubin (University of Massachusetts, USA)  
Christian Holm (University Stuttgart, D)  
Pavel Jungwirth (Academy of Sciences of the Czech Republic, CZ)  
Brian Kirby (Cornell University, USA)  
Alexander Kuhn (Université de Bordeaux, F)  
Antonio Ramos (University of Seville, E)  
Monika Schönhoff (University of Münster, D)  
Igal Szleifer (Northwestern University, USA)  
Patrick R. Unwin (University of Warwick, GB)

### Chairpersons

Prof. Carsten Werner (Chairman)  
Dr. Ralf Zimmermann (Co-Organizer)

### Venue

The conference will be held in the Leibniz Institute of Polymer Research Dresden  
Hohe Straße 6  
01069 Dresden  
Germany

### Important Dates

Call for Papers: January 2017  
Deadline abstract submission: May 31, 2017  
Early registration: until July 31, 2017  
Start ELKIN 2017: Sun, Sept. 10, 2017 about 18:00 with a plenary lecture

### Organizing Institution

Leibniz Institute of Polymer Research Dresden

### Contact

Scientific affairs:  
Prof. Carsten Werner, werner@ipfdd.de  
Dr. Ralf Zimmermann, zimmermn@ipfdd.de

### Technical Organization:

Kerstin Wustrack, wustrack@ipfdd.de  
Juliane Bendzko, bendzko@ipfdd.de  
Jing An, an@ipfdd.de
