# Hands-on workshop on MRM/PRM for multiplexed protein quantitation

**MS instruments:** Q-Exactive HF™ (Thermo), TSQ Vantage™ (Thermo), Xevo TQD™ (Waters), Triple Quad 6500+ System™ (Sciex)

**Data analysis:** Skyline

In individual groups (group size max. 5 attendees) participants will learn:

- sample preparation,
- development and optimization of the MRM/PRM approach,
- data acquisition and analysis using different LC/MS systems and software

The hands-on training will be accompanied by in-depth tutorials and lectures.

**Key Note Speaker:** John R. Yates

**Lecturers:** Sebastien Gallien & Christoph Borchers
