Noreja (WU Vienna)	13:03
Heimdallr (Babes-Bolyai Univ.)	13:09

The **Business Innovation stream** comprises teams with innovative business models, new products as well as new approaches to problems in industries while making use of existing and emerging technologies. Mainly these challenge the dominant logic in their industry and are therefore innovative businesses. | The **Tech Innovation stream** comprises startups where an in-house developed technology, often originating from cutting-edge research, serves as the main driver of value creation. Here, materials or technologies are developed which are new to the market and enable customers to achieve what was not possible before.

# Stage Two | Online Exclusives

Speaker: **Tobias Henz** (Associate Partner McKinsey & Company)

Register for livestream.

## Stage Two | COVID-19 Regulations

Stage Two will be a "2G event", i.e. only recovered or vaccinated guests are allowed to participate on-site. Tests (neither Antigen nor PCR) as a substitute cannot be accepted.

All participants and invited guests must be ready to present their proof of full recovery or proof of vaccination at the entrance, whether in electronic (EU Digital COVID certificate) or paper form.

We ask all on-site participants to wear FFP2 face masks in the entrance queue and from the moment of entering the venue (outside the seating areas and for the catering).

Any questions?
