Bayern Innovativ invites you to the Thinknet 6G Summit 2022

Latest research activities and projects about 6G, the future of wireless Nuremberg, August 04, 2022 The Thinknet 6G Summit 2022 will take place on September 16, 2022, both in presence in Munich and online. Germany’s only congress on the topic of 6G brings together top-class speakers from research, business and politics. Focus topics include the 6G vision, the German research landscape, sustainability in 6G as well as migration and introduction of the new technology.

Thinknet 6G at Bayern Innovativ invites you to their second international expert summit, with a focus on the future of mobile communications technology. Since its foundation by the Bavarian Ministry of Economic Affairs, Regional Development and Energy (StMWi) in March 2021, the Thinknet 6G initiative at Bayern Innovativ has established a large and interdisciplinary ecosystem of more than 450 stakeholders from industry, research, associations, innovators, start-ups and incubators. Together, they ensure that the relevant players from Bavaria play a pioneering role by actively shaping 6G research and development at an early stage, contributing their know-how, and engaging in international exchange. Last year’s Thinknet 6G Summit involved participants from over 22 countries. The focus topics of this year’s Summit include:

Highlights of the Thinknet 6G Summit 2022:
- Insights from the four German BMBF-funded 6G research hubs.
- Information about the new German flagship project 6G-ANNA.
- Challenges and opportunities related to sustainability in 6G
- Thought-provoking panel discussion around the topics of migration and deployment

www.thinknet-6g.de
Thinknet 6G is a think tank and network ecosystem for all interested 6G stakeholders worldwide. The platform is funded by the Bavarian Ministry of Economic Affairs, Regional Development and Energy, and is coordinated by Bayern Innovativ, the innovation agency for Bavaria.

When it comes to innovations, Bayern Innovativ is knowledge manager, idea generator and catalyst. As a neutral institution of the Free State of Bavaria, Bayern Innovativ pools relevant expert knowledge especially for small and medium-sized enterprises, so they can successfully implement their innovations. Bayern Innovativ supports the innovation process as the heart and backbone of an open and sustainable ecosystem that is fit for the future. To make innovation possible, we connect people with a wide range of knowledge from industry, science, administration and politics. We manage, network and drive innovation projects — with a lot of experience and state-of-the-art methods. For our digital platforms and for connecting our clients, we are already making use of artificial intelligence today. Our
vision is a Bavaria in which every viable idea becomes innovation. We turn Bavarian companies into the technological winners of tomorrow and strengthen Bavaria's business location sustainably.
