

## Call for Application for personnel expansion the editorial board of the journal "German Journal of Exercise and Sport Research" (from 01.07.2024)

The "German Journal of Exercise and Sport Research" ("Sportwissenschaft") is an internationally recognized publication for the entire spectrum of sport science topics.

The journal is published jointly by the Federal Institute for Sports Science (BISp), the German Olympic Sports Confederation (DOSB) and the German Society of Sport Science (dvs) by Springer Medizin Verlag (Heidelberg). A board of editors is responsible for the content and quality of the journal.

Having received an impact factor in 2023, the journal is enjoying a high level of submissions, so the institutional editors have decided to expand the editorial team.

The editorial board is to be **strengthened as of July 1st, 2024**.

The editorial board currently consists of two managing editors-in-chief, who bear central responsibility for the quality of the journal. They are supported by up to seven so-called "Associate Editors", who each take responsibility for one or more content areas from the broad spectrum of sports science (e. g. sports sociology, sports economics, training science, sports education, health, etc.).

The editorial board currently consists of:

### "Editors-in-Chief":

Prof.in Dr. Bettina Wollesen, University of Hamburg

Prof.in Dr. Anne K. Reimers, Friedrich-Alexander-University Erlangen-Nürnberg

### "Associate Editors":

Prof. Dr. Eric Eils, University of Münster

Prof. Dr. Peter Gelius, University of Lausanne

Prof. Dr. Bernd Gröben, Bielefeld University

Prof. Dr. Sebastian Kaiser-Jovy, Heilbronn University of Applied Sciences

Jun.-Prof.in Dr. Stefanie Klatt, German Sport University Cologne

Prof.in Dr. Kirsten Legerlotz, Humboldt-University of Berlin

Prof.in Dr. Verena Oesterhelt, Justus Liebig University Gießen

Prof. Dr. Gorden Sudeck, University of Tübingen

Prof. Dr. Christoph Zinner, Hessian University of Applied Sciences for Public Management & Security

The editorial board is responsible for the content and quality of the journal. It decides on the acceptance and rejection of submitted manuscripts after an anonymous peer-review. In coordination with the Editors-in-chief, the associate editors organize the entire process of supervising authors and selecting reviewers for their thematic area. This activity is supported by an internet-based editorial system provided by the publishing house. The work of the editorial board is supported by an editorial team.

The term of office of the members of the Editorial Board ends on March 31, 2027; reappointment is possible. No expense allowances are paid for work on the Editorial Board.

**Up to five positions as "Associate Editors"** in the Editorial Board for the journal "German Journal of Exercise and Sport Research" are advertised for the period **01.07.2024 to 31.03.2027**.

Candidates should have a proven track record in a sports science field, but preferably also have knowledge of other areas of sports science. In-depth experience with scientific publications, especially in the segment of international and national peer-reviewed scientific journals, is required. Self-nominations are welcome.

The members of the editorial board are appointed by the institutional editors of the "German Journal of Exercise and Sport Research" (BISp, DOSB, dvs) in agreement with the publisher.

**Proposals or self-nominations** must be sent to the President of the dvs e.V., Prof. Dr. Ansgar Schwirtz, by **June 30, 2024** (cut-off date; the date of receipt is decisive):

**German Society of Sport Science (dvs)**

Bei der Neuen Münze 4a, D-22145 Hamburg, Germany
