

Conference Venue

**Leibniz Institute of Ecological Urban and Regional
Development (IOER), www.ioer.de**

Address: Weberplatz 1, 01217 Dresden, Germany
Director: Prof. Dr. Dr. h. c. Bernhard Müller

Network of Spatial Research and Planning
in Central, Eastern and South-Eastern Europe

10th Network Conference

The Role and Future of Spatial Planning in Central, Eastern and South-Eastern Europe

26-27 September 2013, Dresden

Organised by

Leibniz Institute of Ecological Urban and Regional Development
Technische Universität Dresden, Chair of Spatial Development

The Role and Future of Spatial Planning in Central, Eastern and South-Eastern Europe

The creation of permanent sustainable and environmentally friendly (ecological) cities and regions is a major concern of spatial planning in Europe. On the one hand, such developments as the demographic and climate change, as well as debates on renewable energies or eco-system services and the labour market confront these countries with a number of complex issues, and present a major challenge to the planner's field of activity. On the other, shifting basic political, economic and societal conditions are causing changes in local value systems, and exerting an influence on spatial planning. These countries harbour a particularly great potential for transformation. In this context, the 10th Network Conference of spa-ce.net is concerned with determining the role and future of spatial planning in these parts of Europe. The following five questions may help take stock of the situation:

- 1) What is spatial planning and development and how is it useful?
- 2) How has the understanding of spatial planning and the planning culture developed to date, and what importance has been accorded to the term sustainability?
- 3) How is the development of spatial planning reflected in the structure and organisation of the spatial planning system?
- 4) What is the relationship between spatial planning and such sectoral planning fields as environmental or landscape planning?
- 5) What challenges face spatial planning and development, and what are the current approaches to overcoming them?

Conference Information

Conference language: English
Registration deadline: 20 September
Conference fee: one day 25 Euro, both days 50 Euro
(Cash payment on the day of the conference)

Joint Network Secretariat at IOER and TU Dresden

Network of Spatial Research and Planning
in Central, Eastern and South-Eastern Europe

Spa-ce.net is a common-interest network of Central, Eastern and South-Eastern European institutes and organisations active in the field of spatial research and planning. The network serves to share common visions, and to develop trust and an interest in cooperation, as well as to motivate and mobilise major actors, and to encourage research. It also provides a forum for a meeting of minds and an exchange of information, experience and research results. The network is always open to new members. Our mission is to ensure sustainable development on the European continent by providing spatial research results to scientists, policy-makers and the interested public. It can contribute significantly to improving the quality of life, to enhancing the protection and management of Europe's cultural and natural heritage, and to creating new jobs and spurring economic growth.

Thursday, 26 September	
8.30	Arrival at IOER
9.00	Opening of the Conference Prof. Dr. Bernhard Müller Leibniz Institute of Ecological Urban and Regional Development (Germany)
Session 1 (Moderation – Bernhard Müller)	
9.30	German Landscape Planning – management instrument for the protection, maintenance and development of nature and landscape Prof. Dr. Wolfgang Wende Leibniz Institute of Ecological Urban and Regional Development (Germany)
10.00	Role of spatial planning on the municipal level in the process of preservation of areas of natural value in Poland. Legal regulations and practical aspects Dr. Beata Warczewska Wroclaw University of Environmental and Life Sciences (Poland)
10.30	Coffee break
11.00	The concept of landscape structure arrangement in the spatial plan – opportunities and pitfalls Igor Kyselka Institute for Spatial Development – ÚÚR (Czech Republic)
11.30	Status and handling of environmental subjects of protection in the spatial planning systems of Germany and Russia Dr. Peter Wirth* / Dr. Andrey Lappo** / Elena Közle* / Dr. Pavel Spirin** * Leibniz Institute of Ecological Urban and Regional Development (Germany) ** JSC Research and Design Institute of Urban Development – NIIPGradostroitelstva (Russia)
12.00	Discussion
12.30	Lunch break
Session 2 (Moderation – Tamara Maričić)	
13.30	Specifics and recent development of Central European planning culture Prof. Dr. Maroš Finka / Dr. Matej Jaššo Slovak University of Technology, Institute of Management, Department of Spatial Planning (Slovakia)
14.00	Challenge of development and limits to space or spatial planning in a full world Dr. Kristīne Āboliņa University of Latvia (Latvia)
14.30	Spatial planning - for whom and for what Prof. Dr. Borislav Stojkov Retired (working with Palgo Center) (Serbia)
15.00	Coffee break
15.30	Functional areas and "soft planning instruments" – key for success in Central, Eastern and South Eastern Europe? Dr. Robert Knippschild Technische Universität Dresden (Germany)
16.00	Spatial planning and up-to-date geoinformation in times of European Spatial Data Infrastructures Dr. Jiri Hiess Palacký University – UPOL (Czech Republic)
16.30	The 'open source' approach in spatial planning: Applicability challenges in Bulgaria Dr. Elena Dimitrova University of Architecture, Civil Engineering and Geodesy (Bulgaria)
17.00	Discussion
17.30	Closing 1st conference day

Friday, 27 September	
8.30	Arrival at IOER
Session 3 (Moderation – Kristīne Āboliņa)	
9.00	Spatial planning systems in Germany and Poland. Lessons from a cross-over examination Dr. Alexander Tölle German-Polish Research Institute at Collegium Polonicum in Stubice (Poland)
9.30	Role of the Federal Government in spatial planning after the amendment of the German Spatial Planning Act in 2008 Prof. Dr. Gerold Janssen Leibniz Institute of Ecological Urban and Regional Development (Germany)
10.00	Challenges of spatial planning in Poland – new concepts and tools in 2014-2020 Dr. Adam Polko University of Economics in Katowice, Department of Spatial Economics (Poland)
10.30	Coffee break
11.00	Still looking for the right path – Slovenian planning system 20 years after Prof. Dr. Mojca Golobič / Dr. Naja Marot University of Ljubljana, Biotechnical Faculty, Department of Landscape Architecture (Slovenia)
11.30	The necessary interlinkage of the integrated strategic urban planning framework and the changing spatial planning regime in Hungary Dr. Zsuzsanna Földi Hungarian Academy of Sciences, Research Center for Economic and Regional Studies, Institute for Regional Studies (Hungary)
12.00	Discussion
12.30	Lunch break
Session 4 (Moderation – Maroš Finka)	
13.30	The renewal of strategic governance and planning at regional level in Serbia Dr. Miodrag Vujošević / Tamara Maričić / Dr. Slavka Žeković Institute of Architecture and Urban & Spatial Planning of Serbia (Serbia)
14.00	Urban revolutions and planning moguls. The rise of participatory spatial management in Poland Prof. Dr. Mariusz Czepczyński University of Gdańsk (Poland)
14.30	Spatial planning in Polish city-regions: local autonomy and metropolitan-wide problems Prof. Dr. Tomasz Kaczmarek / Dr. Łukasz Mikuła / Prof. Dr. Andrzej Mizgajski Adam Mickiewicz University (Poland)
15.00	Coffee break
15.30	Functional zoning as instrument of spatial planning for territories traditional land use of indigenous peoples of the Russian North (on example Khanty-Mansi Autonomous Okrug – Yugra) Dr. Dmitry Marinskikh Joint-Stock Company-Scientific production centre SibGeo (Russia)
16.00	Analysis of ecosystem services of urban landscapes to ensure the urban resilience and environmental safety of the cities (by the example of the city of Tyumen) Liliia Sulkarnaeva Tyumen State University, Institute of Terrestrial Science (Russia)
16.30	Discussion
17.00	Concluding remarks and perspectives Prof. Dr. Bernhard Müller Leibniz Institute of Ecological Urban and Regional Development (Germany)
17.30	End of the conference
