

Public health research and data sharing:

*How can a joint European Health Data Space
drive innovation?*

Patronage: Fraunhofer-Institute for Applied Information Technology

Making health data actionable

Data-enabled frameworks for cross-border knowledge sharing are essential to reduce health inequities, supporting a personalized health system. Investing in strengthening health systems, data-driven solutions and personalized healthcare will accelerate innovation and will promote access to health solutions for all.

The event brings together a community of researchers, healthcare providers, payers, policy makers and patient advocates who recognize the value of collaboration for the benefit of health and health systems.

Part 1

Fundamentals of health data sharing: key to accelerate personalized healthcare

Dr. Lydia Unger-Hunt *Moderation*

15:30 Welcome and introduction

Opening remarks by Steering Committee

Prof. Dr. Bettina Borisch *Institute of Global Health, Switzerland*

Prof. Dr. Thomas Berlage *Fraunhofer-Institute for Applied Information Technology, Germany*

Unlocking the potential of health data to make personalized healthcare a reality

Dr. Martin Hager *Roche Pharma AG, Germany*

Essentials of health data sharing

Public health research and data for a learning health system

Prof. Dr. Bettina Borisch *Institute of Global Health, Switzerland*

Infrastructure, technology and interoperability for data-enabled frameworks

Prof. Dr. Thomas Berlage *Fraunhofer-Institute for Applied Information Technology, Germany*

Europe's future health data landscape: European perspective on public-private collaboration and an European Health Data Space

Markus Kalliola *The Finnish Innovation Fund Sitra, TEHDAS Coordinator, Finland*

Advancing personalized healthcare through partnerships for genomic research: genomeDE initiative

N.N.

Panel discussion

Prof. Dr. Bettina Borisch *Institute of Global Health, Switzerland*

Prof. Dr. Thomas Berlage *Fraunhofer-Institute for Applied Information Technology, Germany*

Birgit Bauer *Digital Health & Social Media Entrepreneur | Patient Expert, Germany*

Dr. Martin Hager *Roche Pharma AG, Germany*

Dr. André Breddemann *BARMER Health Insurance, Germany*

16:50 Break

Part 2

National initiatives on health data sharing: key to drive innovation in joint undertakings

17:00 The way forward to improve data sharing for decision making

Dr. Denis Horgan *European Alliance of Personalised Medicine (EAPM), Belgium*

Enablers for collaborative and innovative frameworks and personalized health systems

Findata: Requirements for secondary use of health data

Johanna Seppänen, PhD *Findata, Finland*

The Health Data Hub: Promoting data-driven health research and innovation

Dr. Emmanuel Bacry *Health Data Hub, France*

Advancing the journey in precision medicine through collaboration and data sharing for clinical decision making

Prof. Dr. A.J. Gelderblom *Leiden University Medical Center, The Netherlands*

Panel discussion

Dr. Denis Horgan *European Alliance of Personalised Medicine (EAPM), Belgium*

Dr. Emmanuel Bacry *The Health Data Hub, France*

Prof. Dr. A.J. Gelderblom *Leiden University Medical Center, The Netherlands*

Birgit Bauer *Digital Health & Social Media Entrepreneur | Patient Expert, Germany*

Dr. André Breddemann *BARMER Health Insurance, Germany*

Dr. Martin Hager *Roche Pharma AG, Germany*

Wrap-up and closing remarks

Prof. Dr. Bettina Borisch *Institute of Global Health, Switzerland*

Prof. Dr. Thomas Berlage *Fraunhofer-Institute for Applied Information Technology, Germany*

18:15 End of event
