## SOCIAL PROGRAM

In addition to the scientific sessions, the conference will include an exciting social agenda. This agenda is aimed at cultivating professional networking and interdisciplinary communication. This agenda includes:

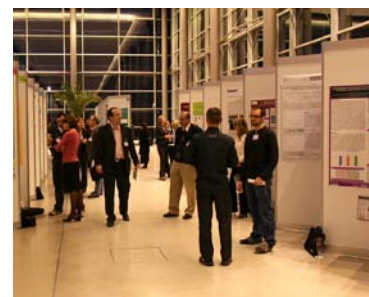

### November 2, 2011 – Opening Ceremony and “Get-Together” in the Exhibition Area

Following the opening ceremony, join us at the “Get-Together” so that you won’t miss this chance to mingle and mix with cutting edge researchers from every corner of the globe as well as company leaders involved in translating research into cell and tissue engineered products.

### November 3, 2011 – Poster Party

Don’t miss the opportunity for networking and intensive discussions with colleagues and poster authors among the hundreds of posters being displayed at this year’s WRM. At this Poster Party with beer and snacks, you’ll have the opportunity to discuss with each of the poster authors themselves about their work.

### November 4, 2011 – Social Evening

With more than 17,000 different tropical plants, around 300 exotic animals and the kind of virgin rain forest which once characterised the lost continent of Gondwana, on this Friday night we invite you to the Tropical Experience World Gondwanaland at the Leipzig Zoo, where all of this comes alive. Wander down exciting trails through this tropical rainforest where birds fly overhead and monkeys climb in trees and take the opportunity to strengthen current relationships and meet new colleagues. You may even have something cross your path!
